WIRING INSTRUCTION

L: Switch-in Live Wire

L1: Switch-out Live Wire 1

L2: Switch-out Live Wire 2

L3: Switch-out Live Wire 3

L4: Switch-out Live Wire 4

N: Switch-in Neutral Wire

Note

The number of output lines varies according to different products, please refer to the actual product.

The installation involves high voltage and should be operated by a professional electrician.

The installation location of the panel needs to have a neutral wire; when the environment has more than one neutral circuit, it is necessary to ensure that it is in the same neutral circuit with the controlled lights.

Please strictly observe the load power limits and control the number of appliances per circuit to no more than 4.

INSTALLATION

1. Cut off the electrical power supply and make sure the wiring is not charged. Then connect the wires according to the wiring instruction, make sure all the wires are placed firmly.
2. Lift all keypads with your fingers.
3. Place the wires in the cassette orderly, and fix the switch to the cassette with fixing screws.
4. Simply install the keypads back.
5. Restore the power supply, the device will turn on automatically.
6. After configuration of the Smart Station, choose "Add Device" in LifeSmart App, select "Smart Switch Air". Follow the instruction on the app to finish pairing.
7. Long press the Switch 1 button (the upper left corner of the switch) then the indicator will start to flash slowly, which indicates that the device is ready to pairing.

*Cassette need to be provided by yourself

WARRANTY DESCRIPTION

Thank you for purchasing this LifeSmart product. In order to protect your rights, please read the following content carefully: The warranty period of our company's products is one year from the date of purchase or longer if local laws impose a longer minimum term, in which case the minimum term is the warranty period. During the warranty period, any faults caused by the product itself or for quality problems that arise under normal usage, LifeSmart will provide a free replacement.
